DULL DAY ON 'CHANGE

Total Sales of Stocks Barely Exceeded 100,000 Shares.

Fluctuations Narrow and Values Comparatively Firmly Held-Indianapolis Grain Improving.

At New York yesterday money on call was easy at 1 per cent.

Prime mercantile paper, 3@5 per cent. Sterling exchange firm, with actual business in bankers' bills at \$4.88% 04.88% for demand and \$4.87\\@4.87\\ for sixty days; posted rates, \$4.88@4.891/2; commercial bills,

Silver certificates, 61%c. Bar silver closed at 62%c per ounce; at London, 28%d. Sales of stocks amounted to 100,991 shares. Speculation yesterday was intensely dull and absolutely devoid of interest. Chicago Gas was the only stock in which the transactions exceeded ten thousand shares, and in only four others- St. Paul, Sugar, Missouri Pacific and American Tobacco-did the sales exceed five thousand shares. The fluctuations were extremely narrow, and in but few instances did the changes on the day range above fractions. London was in the market as a small buyer of St. Paul and some of the low-priced arbitrage specialties, and helped sustain prices early in the day when a slight bear raid threatened values. But considering the duliness and the lack of buyers, the market was firmly held. A raid was made on Chicago Gas in the opening dealings, based on fresh rumors of the announcement of an unfavorable decision in the quo warranto case, and after an advance of 14 the shares were sold off 1/8 per cent. The stock offered being readily absorbed, checked the downward movement and brought about an advance of 13, of which 34 was lost at the close. Sugar declined 32, and then began to move upward, making a gain of 1%, but reacting ¼ in the final dealings. The purchasing movement in American Tobacco continued, and resulted in an appreciation in value of 3% per cent. Dela-wars & Hudson advanced 1% per cent. on the day, the moving influence being a belief that the attempt of the minority of the board of managers to secure sufficient proxies to change the control of the company is a failure. It is expected that a small shipment of gold will be made to France on Saturday, but the talk of gold export does not affect the stock speculation, inasmuch as the foreign exchange market is not favorable to any large trans-

LOCAL GRAIN AND PRODUCE. Another Quiet Day on the Wholesale

Streets with Few Fluctuations. With the wholesale grocers and on Commission row there was a fair volume of business in progress yesterday, but in other lines little was doing. In prices there were few changes. Provisions are firmer and some descriptions of hog products higher, but, as compared with a year ago, they are very low. In staple groceries a strong tone to prices prevails, while in dry goods concessions are made to sell good bills. In the vegetable line firmer prices are noticeable. Receipts are not as large as last month. The supply of strawberries is still very limited. Some very fair fruit came in yesterday from Alabama. New potatoes in light supply. Both

poultry and eggs are firmer. The local grain market is more active than last month. Still there is ample room for improvement. Shippers and dealers bid only on stuff they can readily turn. Track bids yesterday ruled as follows: Wheat-No. 2 red, 56c; No. 3 red, 53c; rejected, 40@50c; wagon wheat, 56c. A BATTLE-SCARRED VETERAN.

An Old Man Who Claims to Be Colonel Heath in the Iowa Penitentiary.

ANAMOSA, Ia., April 11.-A convict now confined in the Anamosa penitentiary claims he is the Colonel Heath who commanded Heath's division of Hill's corps at the battle of Gettysburg. He describes accurately all the maneuvers of the battle exactly as set forth in the official records of the War Department. There is scarcely a spot on his body six inches square that has not an army wound. Letters have been written to ascertain the truth of the statements and establish identity, and is he is found to be what he claims, a pardon will be asked for from the President by his

Heath is seventy years old, and he and his son are in the prison for three years for stealing cattle. Judge Parker, of the Indian Territory, who sentenced them, says they carried on cattle stealing on a large scale, shipping to Kansas City. Heath claims a personal acquaintance with Hoke Smith, and says Hoke's father was in the army with him. People are inclined to be-lieve his story. A letter has been writ-ten to Secretary Hoke Smith in regard to the old man.

HER HUSBAND ALIVE.

She Supposed He Was Dead and Had Collected \$5,000 Insurance Money.

CLEVELAND, April 11. - Mrs. Jacob Weisenborn, of this city, since the latter part of October has thought herself a widow, but a dispatch from Buffalo makes her widowhood extremely doubtful. Her husband left her suddenly last October. She went to Buffalo and discovered that an unknown man answering the description of her husband had been killed on the New York Central railroad, Coroner Tucker, of Buffalo, gave permission to have the body exhumed, and Mrs. Weisenborn and the insurance company representatives viewed the remains. The features were not recognizable, but the body was positively identified as that of Jacob Welsenborn. Mrs. Weisenborn received \$5,000 insurance money. News comes from Buffalo that Weisenborn is alive and in good health, living in that city. A prompt investigation will be made.

A Pythian Tragedy.

KANSAS CITY, Mo., April 11.-Last night George Root, chancellor commander of Forest Lodge, No. 130, Knights of Pythias, was shot through the body and probably fatally wounded just outside the lodge room, in the Humboldt Building, by Henry W. Keeling, also a member of the lodge, At the time of the shooting a committee of the lodge was about to consider certain differences between Root and Keeling, chiefly arising out of alleged improper relations between Root and Mrs. Keeling. The charges against Root were made by Keeling, and Root, in defense, claimed that they were prompted by jealousy. Keeling walked to the police station and gave him-

Charges Against Governor Flower. ALBANY, N. Y., April 11.-The Senate fudiciary committee submitted a memorial from the Civil-service Reform League today, charging Governor Flower with a violation of the civil-service laws. The committee also offered a resolution that the chairman of the committee, Senator O'Connor, Senators Saxton and McMahon be appointed a special committee to investigate the charges and to report at the opening of the next session of the Senate. A bitter partisan discussion ensued, which was terminated by the Lieutenant Governor ruling that the resolution was not properly before the Senate. It will be called up again

Did Not Issue the "Panic Bulletin." NEW YORK, April 11.-The American Bankers' Association denies the authenticity of a certain unsigned circular called the "panic bulietin," dated March 12, 1893, and caling upon banks to unite in making a money stringency felt as a means of procuring the repeal of the Sherman act and other legislation in the interest of the banks. The circular has been published in several newspapers and was recently quoted by Grand Master Sovereign in speech at Little Rock, Ark. In a letter of April 4 Mr. Sovereign states that he considers the refutation of the circular by the Bankers' Association as conclusive.

Big Tent for Erdeavorers. CLEVELAND, O., April 11.-A mammoth three-pole tent has been secured from Barnum & Bailey in which to hold the big convention of the Christian Endeavor Society, which will be in session here from July 1 to the 16th. A personal house-tohouse canvass will be made to secure sleeping quarters for the forty thousand young people who will be present. Arrangements will also be made to provide a lunch at the tent for ten thousand people during the convention.

Ingersoll to Defend a Blasphemer. LEXINGTON, Ky., April 11.-Editor Charles C. Moore stated to-day that he has engaged Col. Bob Ingersoll, the famous infidel, to defend him in the case of blasphemy against him. He says the people who called him a blasphemer will stand little show beside Colonel Ingersoll. Moore is out on bail.

LIKE SO MUCH LEAD

Chicago Wheat Had Nothing to Sustain It Yesterday.

Once Started the Price Slumped Off Until at the Close It Had Touched 60 3-8c-Everything Lower.

CHICAGO, April 11.-Wheat was very weak, and closed at a decline of 24c. The government report, which was considered bearish, induced free selling and realizing, and May closed only 1/3c from the bottom. Corn, oats and provisions went down with wheat, and closed limp and lower. After some conflict of opinion on the

curb, yesterday afternoon, regarding the

interpretation of the government report, the weak manner in which the market opened this morning indicated that all but a small remnant of the bull feeling engendered by it had been wiped out. There were sellers of May wheat immediately on the opening at anywhere from 624c down to 61%c. Not much was parted with at that time at the lower of those figures, but it was not long before 61%c was an unobtainable price, and almost ic lower was accepted before more than an hour of the session had passed, 60%c becoming the current price for a moment or two, about 10:30 o'clock, before enough buying orders came in to arrest a lower range of stop-loss orders from coming on the market. The government report of the average condition being 10 points higher than on April 1, last year, and 51/2 points above the April condition in 1892, in which latter year the yield of winter wheat was 359,000,000 bushels, some warrant was found for the bearish interpretation the speculators had determined to put on the report. The weather was doing its best to repair the injury it did in the end of March. Receipts were fairly liberal in the Northwest-heavy, in fact, compared with those of a year ago. It was on the corresponding day of last year that the Cudahys abandoned their May deal and the price dropped in a few minutes, on that occasion, from 99c to 84c. Before the decline quite stopped May sold at 60%c, but rallied again to 61%c. The bears again jumped on the market, and after another break to 60%c, and about a dozen fluctuations between that and 60%c, there followed a fresh slump to 601/2c, a recovery to 60%c, and yet another decline to 60%c. About half an hour from the close the price had once more recovered to 60%c. The most active of the local bear contingent, who had been scared into covering on the first scare, were observed to be all back again on the short side. W. R. Linn, Captain Phillips, Harry Champlin and Ed Cottrill, of New York, had among them millions for sale, and they did not wait for any one to bid for it, but pressed it until some less determined shorts took it from them. Some venturesome bulls also bought at under 61c. July was generally 11/2c over May. The closing phase of the market was one of renewed weakness. New York reported boatloads taken for export, but that failed to sustain the courage of the bulls or to restrain the aggressive action of the bears, and a drop from 60%c to 60%c occurred in the last ten minutes of the session, the closing quotation being 60%c sell-Although Armour has unloaded two car-

goes of corn which had been loaded to go East, the market here for that article for a long time resisted the bearish influence of such a proceeding and likewise the effect of a slumpy wheat market. The combined influences of what is here referred to as a slack Eastern demand told with more ef-fect after half of the session had gone by. May opened at 38%c and sold off to 38%c. It recovered a little, and refused to go below 38½c until late in the day, when there was a further decline to 38½c. May closed at 38% @381/2c and July at 391/2c, a loss of about %c since yesterday. Oats were active, but weak and decidedly lower in sympathy with wheat and the free selling by several brokers. Prices receded

sharply, the near futures declining 1/6/1c, and the more deferred months 3/6/1%c. On the break there was good buying by the largest holders, and prices reacted %@1/2c, the market closing at a net loss of 1201c September being the weakest. Provisions were weakened by the receipts of hogs proving more liberal than yester-day's estimates. There was a drop on that

of from 5c to 10c in pork at the opening Lard for July opened at a decline of .0216c. and there was a clean slump of .10c in May ribs as soon as trading started. The estimate that to-morrow's receipts of hogs would number 32,000 added to the weakness and the extreme heaviness of the wheat market clinched it. There was a decline in all for the day of 371/2c in pork and .1500 .171/2c in lard, and of .20c in ribs. The trade was extremely bearish in expressing opinions about the market, and a heavier run of hogs in the near future was confidently predicted among them. Estimated receipts for to-morrow are:

GOOD ADVICE.

Every patriotic citizen should give his personal effort and influence to increase

the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST, published by the American Protective Tariff League? One of its correspondents says: "No true American can get along without it. I consider it the greatest and truest political teacher in

the United States." Send postal card request for free sample copy. Address Wilbur F. Wakeman, General Secretary, 135 West 23d St. New York
